MANAGEMENT'S DISCUSSION AND ANALYSIS

**FOR THE SIX MONTH PERIOD ENDED
DECEMBER 31, 2007**

SECOND QUARTER OF FINANCIAL YEAR 2008

(TSX: OM.V)

INTRODUCTION

The following Management's Discussion and Analysis ("MD&A") of the financial condition and results of operations is for the three and six month periods ended **December 31, 2007** of OneMove Technologies Inc. (the "Company" or "OneMove"). This MD&A is intended to help readers understand OneMove, its business, strategies, performance, and future outlook from the perspective of management. The MD&A should be read in conjunction with the audited consolidated financial statements and accompanying notes for the years ended June 30, 2007 and 2006 and the unaudited consolidated interim financial statements and accompanying notes for the three and six month periods ended December 31, 2007. Additional information relevant to the Company's activities can be found on SEDAR at www.sedar.com or on the Company's website www.onemovetech.com.

The MD&A has been prepared by reference to the MD&A disclosure requirements established under National Instrument 51-102 "Continuous Disclosure Obligations." The Company's financial statements are prepared in accordance with Canadian generally accepted accounting principals ("GAAP"). The Company's reporting currency is Canadian dollars unless otherwise stated.

The date of this Management's Discussion and Analysis is as at February 20, 2008.

PUBLIC LISTING AND QUALIFYING TRANSACTION

OneMove Technologies Inc. was originally listed on the TSX Venture Exchange (the "Exchange") on February 9, 2006 as a capital pool company under the name Interlude Capital Corp. ("Interlude"). Interlude changed its name to OneMove Technologies Inc. and resumed trading on October 24, 2006 under its new name and the symbol - "OM".

FORWARD LOOKING STATEMENTS

Certain information included in this discussion may constitute forward looking statements that reflect the current view of the Company with respect to future events and financial performance. Forward-looking statements entail various risk and uncertainties that could cause or contribute to actual results that are materially different than those expressed or implied. For additional information with respect to these risks and factors, reference should be made to section "Risk Factors" of the Company's annual MD&A for the year ended June 30, 2007 and the prospectus filed on SEDAR with respect to the public offering completed in October 2006. The Company assumes no obligation to publicly update or revise any forward-looking statements even if experience or future changes make it clear that any projected results expressed or implied therein do not materialize.

NON-GAAP FINANCIAL MEASURES

The Company discloses Earning Before Interest, Depreciation and Amortization ("EBITDA"), a non-GAAP financial measure, as a supplemental indicator of operating performance. EBITDA is used internally by the Company to compare cash operating results from one period to another. EBITDA for the purposes of this analysis also excludes stock based compensation, shares issued for services and "Other items" per the financial statements.

EBITDA does not have any standardized meaning prescribed by GAAP and therefore may not be comparable to similar measures presented by other companies. Readers are cautioned not to view this non-GAAP financial measure as an alternative to financial calculations in accordance with GAAP.

THE COMPANY

Overview of the business

OneMove Technologies Inc. has created a real estate transaction platform, currently serving the British Columbia, England and Wales real estate markets. By combining personal service, unique products and leading edge technology, OneMove™ simplifies and expedites the process of buying and selling real estate. The Company's product and service offerings include: 1) econveyance™ in British Columbia and, 2) a Move Management System, Personal Moving Consultants, Home Buyer Expense Insurance, and a free online real estate listing database in England and Wales.

Subsequent to December 31, 2007, as announced on February 13, 2008, OneMove signed a binding Memorandum of Understanding for the sale of its U.K.-based wholly owned subsidiary, OneMove Limited. (see **Subsequent Events pg.13**)

OneMove Canadian operations in British Columbia

On average, there are approximately 800,000 residential real estate transactions (buys, sells and refinances) conducted per year in British Columbia¹. Although computers have improved the speed and accuracy of the property transfer data exchange process known as "conveyancing", the process is still dominated by paper-based transactions, which result in duplicated efforts and additional expense.

The real estate market and provincial land registries are moving toward a paperless property transfer process, facilitating the ability to file completed land transfer documentation electronically. BC OnLine, the web portal supporting available online government services in British Columbia, added electronic access to land title searches and land title registration filing to its suite of offerings in April of 2004. At that time, OneMove's econveyance offering was added as a main menu option on the BC OnLine home page, giving OneMove direct access to the more than 37,000 registered customers in BC OnLine's database.

Econveyance is OneMove's core offering in B.C. It is Canada's only entirely web-based shared data platform that has transformed the antiquated paper-based property transfer process into a completely integrated electronic exchange environment for lawyers, lenders, insurance companies, realtors, buyers and sellers. All participants are provided with a secure and efficient means of seamlessly monitoring and completing the real estate buying or selling transaction online.

OneMove operations in England and Wales

OneMove's core offering in England and Wales is its Move Management System ("MMS") combined with trained personal moving consultants ("PMC"). The combination of MMS and the PMC facilitates the cross marketing of the services a consumer requires during the moving process. PMC's manage all of the logistics of the home moving process, acting as a central link to all those involved, while the web-based MMS allows buyers and sellers to track the transaction's progress via the Internet. In addition, OneMove clients have access to a free property search portal and a propriety insurance product.

SECOND QUARTER OF FISCAL 2008 PERFORMANCE SUMMARY

In B.C., conveyance transactions increased 84% year-over-year. In the U.K., OneMove focused on growing its client base and its operations in England and Wales. New customer sign-ups increase 300% year-over-year.

RESULTS OF OPERATIONS FOR THREE AND SIX MONTH PERIODS ENDED DECEMBER 31, 2007

The following selected quarterly information is derived from the interim consolidated financial statements of the Company for the second quarter of fiscal 2008:

Revenues increased by \$246,704 or 103% to \$486,287 in the second quarter of fiscal 2008 from \$239,583 for the second quarter of fiscal 2007. Revenues for the six months ended December 31, 2007 increased \$526,973 or 115% to \$984,166 from \$457,193 for the six months ended December 31, 2006. Revenue growth was due primarily to a steady increase in volume of conveyance transactions and the growth of the client base in the U.K.

In the second quarter fiscal 2008, although a seasonally slower period, OneMove's B.C. operations demonstrated steady growth in revenues, as the number of lawyers and notaries using the software continued to increase. In the U.K., revenue improvement was the result of an increase in customer sign-ups during the first quarter.

General and administrative expenses include such items as advertising, commissions/fees, consulting, insurance, investor relations/filing fees, office and general, accounting/legal/professional fees, rent/utilities, shares issued for services, salaries/wages, telephone, travel and website planning and development. OneMove reported General and Administrative expenses of \$1,615,778 for the second quarter of fiscal 2008, an increase of \$242,464, compared to \$1,373,314 in the second quarter of fiscal 2007. For the six months

MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Three and Six Month Periods Ended December 31, 2007

ended December 31, 2007, general and administrative expenses were \$3,172,541, an increase of \$569,672 from \$2,602,869 for the six month period ended December 31, 2006.

Changes in specific categories are:

1. *Advertising and promotion* – decreased to \$174,491 from \$211,751 for the quarter (\$277,055 from \$372,601 for the six month period) due to a decrease in investment in marketing in the U.K. and the addition of an in-house marketing manager, which reduced the amount of contract marketing services the Company required during the quarter.
2. *Commissions and fees* – increased to \$171,064 from \$58,442 for the quarter (\$332,895 from \$110,193 for the six month period), as BC OnLine and the Province of British Columbia retain a constant percentage of OneMove's gross revenues generated in B.C. Similarly, the U.K. operation pays flat referral fees to realtors and sales people, which increase as revenue increases.
3. *Investor relations and filing fees* – increased to \$53,072 from \$23,544 for the quarter (\$101,294 from \$28,641 for the six month period) as a result of the Company gaining its public listing and having its first Annual General Meeting as a public company during the quarter.
4. *Office and general* – increased to \$95,902 from \$49,062 for the quarter (\$183,487 from \$113,879 for the six month period) as a result of the increased investment to support the Company's continued expansion, as well as the addition of public company expenses and increased internet costs.
5. *Professional fees* – increased to \$94,132 from \$47,897 for the quarter (\$171,124 from \$77,299 for the six month period) primarily due to legal agreements associated with the U.K. operation and the additional legal advice required due to the Company being a public reporting entity and preparation of the Annual General Meeting information for the quarter.
6. *Salaries and wages* – increased to \$746,611 from \$666,947 for the quarter (\$1,543,496 from 1,274,329 for the six months ended) as a result of salary increases for employees in B.C.
7. *Telephone* – decreased to \$39,851 from \$98,482 for the quarter (\$94,234 from \$177,851 for the six month period) as a result of the implementation of a more cost-effect VOIP telephone system.

Amortization includes the amortization of computer hardware/software, office furnishings, intangible assets and deferred development costs. The Company recorded \$105,801 of amortization during second quarter of fiscal 2008, a decrease of \$108,340, from \$214,141 in the second quarter of fiscal 2007. For the six months ended December 31, 2007, the Company recorded \$201,206 of amortization, a decrease of \$106,851 from \$308,057. The decrease is due to the fact that the Company's deferred development costs were fully amortized as of the third quarter fiscal 2007.

Interest includes interest and bank charges, interest on convertible debt and interest on loans. The Company recorded a total of \$23,640 of interest during the second quarter of fiscal 2008, a decrease of \$77,144, from \$100,784 in the second quarter of fiscal 2007. For the six months ended December 31, 2007, the Company recorded \$44,026 of interest, a decrease of \$159,951 from \$203,977 for the six months ended December 31, 2006. The decrease is due to the amount of short-term and convertible debt the Company incurred in the previous periods leading up to the close of its public financings.

Stock-based compensation is the valuation of the stock options which have vested during the quarter. The Company did not grant any additional stock options during the quarter. In addition, the Company did not issue any agent's options or warrants during the quarter.

In accordance with Canadian GAAP, the fair value of the stock options, agent's options and warrants granted are expensed over the vesting period, with a corresponding increase in contributed surplus or share issuance costs. Using the Black-Scholes model for valuing shares, the Company assumed a volatility rate of 75%, and expected life of three years for the stock options and two years for the agent's options and warrants, a risk-

free rate between 3.96% and 4.66%, and a 0% dividend yield to approximate the value of the stock based compensation. Overall, charges to stock-based compensation decrease by \$192,636 to \$11,925 in the second quarter of 2008 from \$204,561 during the second quarter of 2007. For the six months ended December 31, 2007, charges decreased by \$216,908 to \$42,595 from \$259,503 due to the amount of stock options and warrants issued while the Company was gaining its public listing.

Other items include non-operational expenses and revenues such as interest income, dividends on preferred shares, foreign exchange gains or losses, and loss on disposal of assets. Revenues/gains relating to other items during the first quarter of fiscal 2008 were \$45,189, an increase of \$329,135 from \$(283,946) in the second quarter of fiscal 2007. For the six months ended December 31, 2007, revenues/gains relating to other items were \$104,850, an increase of \$381,175 from \$(276,325) for the six month period ended December 31, 2006. The increase is mainly due to interest income received from funds on deposit and the gain on foreign exchange recorded, along with the fact the preferred shares were redeemed during the prior fiscal year and no assets have been disposed of during the current fiscal year.

Non-controlling interest decreased to \$nil from \$69,493 for the six months ended December 31, 2007 as a result of a change in accounting treatment as the Company obtained 100% ownership of OneMove Limited in the U.K. on May 3, 2007.

Net loss for the second quarter fiscal 2008 was \$1,225,668 or \$(0.02) per share, compared to losses of \$1,937,163 or \$(0.10) per share for the second quarter of fiscal 2007. For the six months ended December 31, 2007, net loss was \$2,371,352 or \$(0.05) per share, compared to losses of \$3,124,045 or \$(0.21) per share for the six months ended December 31, 2006. The decrease in losses is due to the combination of revenue growth, a decrease in expenses, such as interest, stock based compensation and telephone and revenue gains from "other items", all of which were partially offset by the increase in administrative expenses due to costs associated with the increased level of business activity.

EBITDA for the second quarter of fiscal 2008 was \$(1,129,491) as compared to \$(1,133,731) for the second quarter of fiscal 2007. For the six months ended December 31, 2007, EBITDA was \$(2,188,375) as compared to \$(2,145,676) for the six months ended December 31, 2006.

The following selected financial information is derived from the unaudited consolidated interim financial statements of the Company for the last eight quarters.

Total assets as at December 31, 2007, were \$2,857,872 as compared to \$5,473,232 as at June 30, 2007. The decrease in assets is predominately due to the use of cash during the quarter to fund the U.K. subsidiary and pay for the Company's administrative costs relating to being a publicly reporting entity.

Shareholder's equity decreased over the period as a result of the losses incurred.

ONEMOVE TECHNOLOGIES INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Three and Six Month Periods Ended December 31, 2007

Contributed surplus increased during the six months ended December 31, 2007 as described by the following table:

Foreign exchange

OneMove conducts its business in Canadian and U.K. currencies. Consequently, foreign currency fluctuations impact the Company's reported results as the assets, liabilities and results of operations for the foreign operations are translated into Canadian dollars at various prevailing foreign exchange rates.

The average exchange rates used to translate results of operations for the Company's foreign operations for the periods indicated were as follows:

	Q2 F2008	Q1 F2008	YE 2007	Q4 F2007	Q3 F2007	Q2 F2007	Q1 F2007

- spot rate at end of period	1.961	2.033	2.122	2.122	2.268	2.285	2.086

Subsequent to December 31, 2007, as announced on February 13, 2008, OneMove signed a binding Memorandum of Understanding for the sale of its U.K.-based wholly owned subsidiary.

RESULTS OF SEGMENTED OPERATIONS

Canadian operations

The financial results presented for the Canadian operation represent the sales, marketing, research and development activities associated with OneMove Online's operations, and do not include costs associated with OneMove's public company activities.

Overview of operations

The predominant activity in Canada has been the deployment and continued development of econveyance for the B.C. real estate marketplace. During the second quarter of fiscal 2008, OneMove's B.C. operations increased its revenue by 112% over the same period last year. For the six months ended December 31, 2007, B.C. sales have increased 118% over the same period last year.

Traditionally, the second quarter is OneMove's seasonally slowest period. The results for the second quarter of fiscal 2008 reflect this trend, with a quarter-over-quarter drop in transactions by 19%. If this fiscal year follows tradition, the third and fourth quarters will demonstrate an increase in transactions. Management does not expect this trend to be any different for this year.

Going forward, OneMove's domestic objectives include continuing to drive further adoption of econveyance through the intergration of additional service providers and the expansion of services offered beyond that provided to lawyers and notaries, with the goal of increasing transaction volumes and amount of revenue received per transaction. OneMove intends to continue to attract partners and companies that can complement the Company's value proposition in providing the world's first fully integrated, end-to-end solution in the buying, selling and refinancing of real estate.

Financial results for Canadian operations

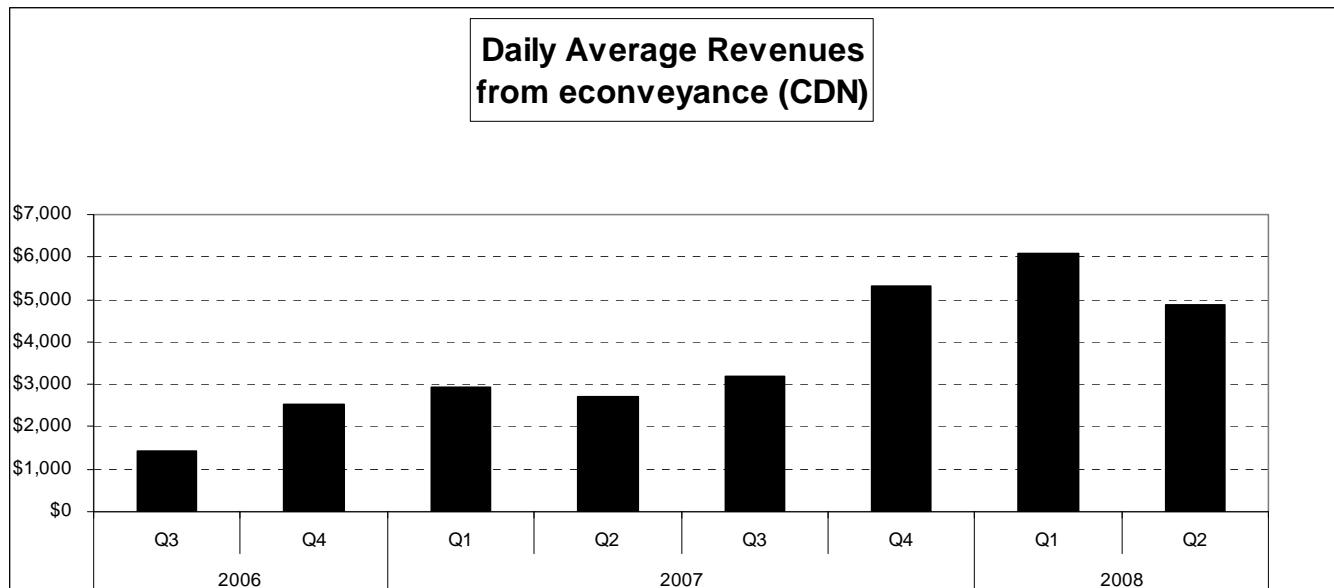

Revenues from Canadian operations for the second quarter of fiscal 2008 increased \$200,787 or 112% to \$380,579 from \$179,792 in the second quarter of fiscal 2007. For the six months ended December 31, 2007, revenues increased \$438,391 or 118% to \$809,638 from \$371,247 for the six months ended December 31, 2006.

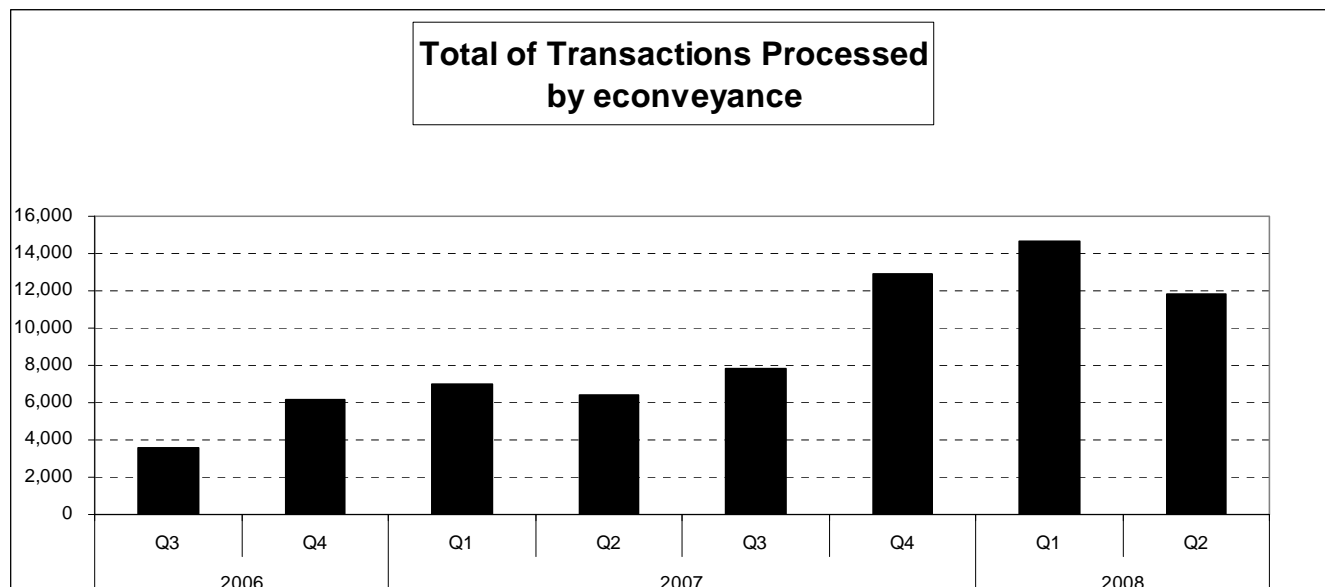

Operating losses for the second quarter of fiscal 2008 were \$99,682 compared to a loss of \$427,698 for the second quarter of fiscal 2007. For the six months ended December 31, 2007, operating losses were \$159,399 compared to a loss of \$970,478 for the six months ended December 31, 2006.

EBITDA for the second quarter of fiscal 2008 was \$(54,973) compared to \$(283,415) in the second quarter of fiscal 2007. For the six months ended December 31, 2007, EBITDA was \$(79,123) compared to \$(600,705) for the six months ended December 31, 2006.

The improvement of domestic operations is attributable to enhancements in econveyance, OneMove's marketing efforts and the continued strength of the real estate market in B.C. Through OneMove's recent integration with Emergis's Real Estate Assyst, the Company has been able to expand its econveyance offering to interface with one of Canada's largest chartered banks and strengthen its visibility in the real estate marketplace. OneMove has also continued its joint marketing initiatives with Emergis and the Land Title and Survey Authority ("LTSA") to promote electronic filing and mortgage instruction transfers throughout B.C.

As per the graphs below, the Company has seen a steady year-over-year increase in daily average revenues over the last eight consecutive quarters. Results for the second quarter of 2008 were indicative of the B.C. real estate market's seasonal trends. In B.C. there is a seasonal spike in real estate transactions in the spring, with negligible growth in the summer and a downturn in the fall. Management anticipates quarterly results to continue to reflect the seasonal nature of the real estate industry.

OneMove public company activities

During the second quarter of fiscal 2008, OneMove Technologies Inc., as a stand alone operation, recorded a net loss of \$402,543. For the six months ended December 31, 2007, it recorded a net loss of \$770,304. These costs are associated with the operation of the public entity and primarily entail the salaries of the CEO and CFO and two direct staff members, the travel costs of the CEO and CFO, investor relations costs, exchange fees, and stock based compensation costs. "Non-operational" costs such as interest and bank charges, stock based compensation and other items accounted for \$86,105 of the loss for the second quarter of 2008 and \$171,523 for the six months ended December 31, 2007.

OneMove U.K. operations

Overview of operations

U.K. operations are based on a service model supported by leading edge technology, MMS, where the Company provides real estate consumers with a specialized personal moving consultant ("PMC"), who monitors the process of buying and selling a home, including the provision of services, such as contracting lawyers, securing lenders, insurance providers and utility providers. The MMS supplies its customers and service providers with access to the relevant information, which enables them to monitor the transaction's progress and identify areas and issues that require action in order to improve the speed, transparency and efficiency of the process.

Subsequent to December 31, 2007, as announced on February 13, 2008, OneMove signed a binding Memorandum of Understanding for the sale of its U.K.-based wholly owned subsidiary. (see **Subsequent Events pg.13**)

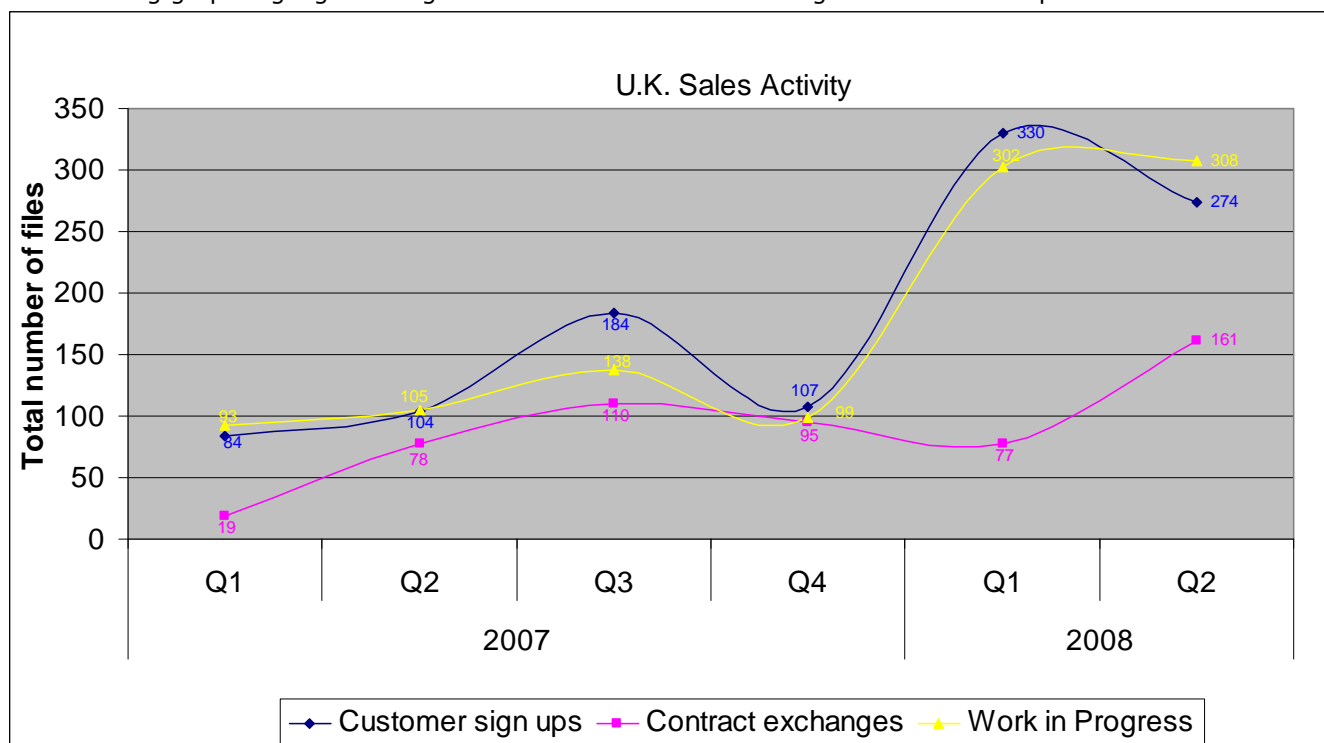

Financial results for U.K. operations

Revenues from U.K. operations for the second quarter of fiscal 2008 were \$105,708, an increase of \$45,917 or 77% from \$59,791 in the second quarter of fiscal 2007. For the six months ended December 31, 2007, revenues were \$174,528, an increase of \$88,582 or 103% from \$85,946 for the six months ended December 31, 2006.

Operating losses for the second quarter of fiscal 2008 were \$842,305 compared to losses of \$958,446 for the second quarter of fiscal 2007. For the six months ended December 31, 2007, operating losses were \$1,677,493 compared to losses of \$1,679,456 for the six months ended December 31, 2006. Operating losses for the second quarter decreased primarily due to a reduction in amortization and a slight decrease in operation expenses. The increase in revenues for the six months ended December 31, 2007, were offset by the increase in operating costs, resulting in net operational losses that were in line with the six months ended December 31, 2006.

EBITDA for the second quarter of fiscal 2008 was \$(758,080) compared to \$(812,254) in the second quarter of fiscal 2007. For the six months ended December 31, 2007, EBITDA was \$(1,510,465) compared to \$(1,506,702) for the six months ended December 31, 2006.

The following graph highlights the growth of the U.K. market throughout the last six quarters:

LIQUIDITY AND CAPITAL RESOURCES

Working capital

As at December 31, 2007, the Company had cash and cash equivalents of \$1,457,106 and working capital of \$784,721, compared to cash of \$3,877,897 and working capital of \$2,950,989 as at June 30, 2007. OneMove's cash and working capital position decreased as a result of the operating losses incurred by the Company in the first two quarters of fiscal 2008.

Cash flow

The Company's principal sources of cash were provided by operations. The Company's principal uses of cash have been to fund working capital, repay debt and purchase capital assets.

Operating activities

Net cash used by operating activities in the second quarter of fiscal 2008 decreased to \$881,934 compared to net cash used of \$1,198,195 in the second quarter of fiscal 2007, reflecting improved net revenues in the quarter. For the six months ended December 31, 2007, net cash used increased to \$2,127,207 compared to

ONEMOVE TECHNOLOGIES INC.
MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Three and Six Month Periods Ended December 31, 2007

net cash used of \$1,760,805 in the six months ended December 31, 2006, primarily reflecting the Company's receipt of government assistance in the first half of fiscal 2007, which it did not receive in the first half of fiscal 2008, and a change in accounts payable.

Financing activities

Net cash utilized by financing activities in the second quarter of fiscal 2008 was \$84,784, as compared to a cash provision of \$967,309 for the second quarter of fiscal 2007. For the six months ended December 31, 2007, net cash utilized was \$174,282 as compared to a cash provision of \$1,914,108 for the six months ended December 31, 2006. Throughout the first half of fiscal 2008, the primary use of funds was the repayment of long-term debt and capital leases, while the cash provisions made during the first half of fiscal 2007 was due to the Company's financing activities.

Investing activities

Net cash utilized by investing activities in the second quarter of fiscal 2008 was \$27,355 as compared to the cash provision of \$200,721 for the second quarter of fiscal 2007. SUBSEQUENT EVENTS

Subsequent to December 31, 2007, OneMove signed a binding Memorandum of Understanding ("MOU") for the sale of its U.K.-based wholly owned subsidiary, OneMove Limited, to Neil Patel, CEO, OneMove Limited. Under the terms of the agreement, Mr. Patel will return to treasury all 5.6 million of his currently held shares in OneMove that were issued to him as consideration for the original purchase of OneMove Limited. OneMove Limited will issue a debenture to OneMove for approximately £1.3 million, to be paid out over a term of 10 years. OneMove will renounce ownership of OneMove Limited, returning all shares held, and provide £175,000 in funding, 50% of which OneMove Limited will repay by way of the debenture. In addition, the representatives for each company will step down from the other company's Board of Directors, and the

companies will enter into a brand sharing and a software royalty license agreement, the terms of which will be finalized upon closing. The sale is expected to close on or before February 28, 2008.

CHANGES IN ACCOUNTING POLICIES

Effective July 1, 2007, the Company adopted new accounting standards related to comprehensive income and financial instruments that were issued by the Canadian Institute of Chartered Accountants ("CICA"). The accounting policy changes were adopted on a prospective basis with no restatement of prior period financial statements. The new standards and accounting policy changes are as follows:

a) Comprehensive income

Comprehensive income is the change in shareholders' equity during a period from transaction and other events and circumstances from non-owner sources. In accordance with the new standard, the Company now reports a statement of comprehensive income and a new category, accumulated other comprehensive income, in the shareholders' equity section of the balance sheet. The components of this new category may include unrealized gains and losses on financial assets classified as available-for-sale, exchange gains and losses arising from the translation of financial statements of a self-sustaining foreign operations and the effective portion of the changes in fair value of hedging instruments.

b) Financial instruments

In accordance with these new standards, the Company now classifies all financial instruments as either held-for-trading, available for sale, held-to-maturity, loans and receivables or other financial liabilities. Financial instruments classified as held-for-trading are measured at fair value with unrealized gains and losses recognized in operating results. Financial instruments classified as available for sale are measured at fair value with unrealized gains and losses recognized in other comprehensive income. Financial instruments classified as held-to-maturity, loans and receivables or other financial liabilities are measured at amortized cost.

The adoption of these new standards noted above had no effect on the presentation of the Company's interim consolidated financial statements for the three and six month periods ended December 31, 2007.

OFF-BALANCE SHEET ARRANGEMENTS

The Company did not enter into any off-balance sheet arrangements during the period.

MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The information provided in this report, including the financial statements, is the responsibility of management. In the preparation of these statements, estimates are sometimes necessary to make a determination of future values for certain assets or liabilities. Management believes such estimates have been based on careful judgments and have been properly reflected in the accompanying financial statements.

DISCLOSURE CONTROLS AND PROCEDURES

Disclosure controls and procedures are designed to provide reasonable assurance that all relevant information is gathered and reported on a timely basis to senior management, so that appropriate decisions can be made regarding public disclosure.

Management evaluated the effectiveness of the Company's disclosure controls and procedures for the year ended June 30, 2007 as required by Canadian securities laws. Based on that evaluation, management had concluded that the disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the Company's annual filings and interim filings (as such terms are defined under Multilateral Instrument 52-109 – Certification of Disclosure in Issuers' Annual and Interim

filings) and other reports filed or submitted under Canadian securities laws is recorded, processed, summarized and reported within the time periods specified by those laws, and that material information is accumulated and communicated to management as appropriate to allow timely decisions regarding required disclosure. There were no changes to disclosure controls and procedures during the six months ended December 31, 2007.

INTERNAL CONTROLS AND PROCEDURES

The Company evaluated the design of its internal controls and procedures over financial reporting as defined under Multilateral Instrument 52-109 for the year ended June 30, 2007. Based on that evaluation, management had concluded that the design of internal controls and procedures over financial reporting was effective. There were no changes to internal controls and procedures during the six months ended December 31, 2007.
