

OneMove™ launches econveyance™ certification program at college campuses across British Columbia

- Company adds 21 new firms to its technology platform in the first two months of 2009 -

Vancouver, BC, March 6, 2009 – OneMove Technologies Inc. (“OneMove” or the “Company”) (TSX-V: OM), which provides a leading web-based real estate transaction platform, today announced that it is providing econveyance certification training to students enrolled in the legal assistant course at the 16 Sprott-Shaw Community College campuses in British Columbia.

“The integration of an econveyance certification program into the Sprott-Shaw curriculum further demonstrates that our technology platform is becoming the industry standard for conveyance professionals,” said Martin Johnson, President and CEO, OneMove. “The program will better prepare students to enter the British Columbia real estate industry, especially as the province’s 2011 deadline for mandatory electronic filing of conveyance documents draws closer. We are pleased to be part of this new educational initiative.”

OneMove is offering its certification programs to all colleges in British Columbia, and the Company anticipates that soon all students graduating from legal assistant programs in the province will have their econveyance certification. The credentials offered through the program provide students with an edge in today’s competitive job market.

Benita Worley, Lead Instructor at Sprott-Shaw Community College, Kelowna Campus said: “Implementing the econveyance certification program helps keep what my students are learning directly relevant to the skills they will be using on the job. I believe that having an econveyance certificate will make them more marketable and confident in their job search. It is great that OneMove has taken such an active role in the training of the next generation of conveyancers.”

The adoption of econveyance continues. OneMove added 21 new firms to its technology platform in the first two months of 2009, growing the Company’s customer base to 322 firms throughout British Columbia. This is up 7% compared to December 31, 2008.
